

British Bird Council

MULE & HYBRID SHOW STANDARDS

LIGHT MULES

Size:	To be of good size compatible with that of the parents.
Shape:	To be of stout cone shape, with broad bold head, and close-fitting wings and tail.
Colour:	To be deep and rich in colour naturally and when colour fed to be considerably intensified.
Markings:	To be distinctly characteristic of both parents, and the clearer the plumage the better.
Quality:	The plumage to exhibit the highest possible smooth glossy surface throughout
Condition:	To be sound in condition in every part.
Steadiness:	The bolder and firmer the stand on the perch the better.
Staging:	To be shown in clean condition and a clean cage.
